

**Strength, Style and Security
for your home and family**

SENTINEL

Why Sentinel Impact Resistant Windows and Doors?

Sentinel by CGI has received the prestigious 2011 Crystal Achievement Award.

An investment in hurricane impact resistant Sentinel Windows and Doors for your home or commercial property is a very wise decision. Sentinel Windows and Doors are manufactured and backed by CGI, founded in 1992 and one of the original pioneers in design and manufacture of high performance impact hurricane resistant windows and doors. CGI's reputation for building high quality windows and doors makes CGI's products the preferred choice of architects, developers, builders and homeowners wherever impact resistant windows and doors are required.

Sentinel's complete line of windows and doors are custom manufactured to enhance the aesthetics of every

architectural style while delivering protection from the most extreme weather conditions.

Sentinel Windows and Doors are the best choice to satisfy your window and door needs. Contact a Sentinel dealer today to learn more and see why an investment in Sentinel is the right decision and an outstanding value.

Selecting Sentinel as your window and door choice is also a smart investment for the following reasons:

- Sentinel impact resistant products increase the resale value of your property
- Sentinel impact products will lower your property insurance premiums in most instances
- Sentinel's laminated impact glass reduces energy requirements for heating and cooling your property
- Sentinel laminated impact glass provides improved security against intruders
- Sentinel's laminated glass eliminates up to 99% of UV ray damage to your interior furnishings
- Sentinel's laminated impact glass reduces outside noise transmission into the interior of your home or property

SENTINEL Advantage

Up to 30% thicker aluminum extrusions

THEIRS
Thinner aluminum gauge provides less strength and sturdiness

SENTINEL
Up to 30% thicker aluminum extrusions for superior strength

Uneven sightlines

THEIRS
Difference in thickness of top and bottom sash construction is less aesthetically pleasing

Architecturally correct sightlines

SENTINEL
Matching top and bottom sash sightlines offer a high-end symmetrical look to your home

Unightly protruding top rail

THEIRS
Protruding rail that detracts from appearance

Smooth flush appearance

SENTINEL
Better aesthetics with our flush design

THEIRS
Open L-frame design reduces structural integrity. Unightly foam pads capture dirt and tend to fall off or get removed

SENTINEL
Superior captured bottom rail u-frame design for improved strength and protection from water infiltration

Larger stainless steel fasteners

SENTINEL
CGI offers superior frame construction design because we fasten our frame corners using three #10-1 1/4 inch stainless steel fasteners

THEIRS
Smaller and fewer #8-1 inch screws provide less frame strength, product longevity and hurricane resistance

Hidden balances

SENTINEL
Features hidden balances for a cleaner, neater look (most sizes)

THEIRS
Exposed hardware detracts from appearance

Captured bottom rail

Triple Weatherstripping

SENTINEL
Triple weatherstripping at the sill creates superior energy efficient air and water infiltration protection

THEIRS
One row of weatherstripping. More likely to leak resulting in energy loss and water intrusion

Reduce energy costs with energy saving options.

Save on your heating and cooling bill by combining energy efficient glass choices including glass tints, Low-E and insulated glass.

Combine the advantages of impact protection and energy savings with Sentinel windows and doors. Save on your heating and cooling bill by selecting from a wide variety of energy efficient glass choices including tinted glass, Low-E coatings and insulated glass. Choose your glass type based on where you live and your budget. For example, tinted laminated glass may be the most cost effective impact resistant glazing option. Consider tinted laminated for warm climates such as Florida, the Caribbean, Hawaii, and coastal areas of South Carolina, Alabama, Mississippi, and Louisiana. If you are looking for higher performance glass options, laminated glass with a Low-E coating or insulated laminated glass with a Low-E coating is available. These high performance glass options are perfect for cooler climates such as North Carolina,

inland sections of South Carolina, Alabama, Mississippi and Louisiana, as well as anywhere required by local building codes. Please contact a Sentinel dealer for more information.

Easy Retrofit

Sentinel is custom manufactured to exact sizes within our wide range of design parameters therefore reducing on-site construction costs. In addition, Sentinel's frame depth is designed for both new construction and replacement applications resulting in faster, less intrusive installations. Uniquely designed, Sentinel products are the best choice for your remodeling project. Improve the value, energy efficiency and aesthetics of your property by selecting Sentinel windows and doors.

Superior Warranty Coverage

Sentinel products are backed by our long standing comprehensive product warranty. Ask your local Sentinel dealer for details or visit our website at www.cgiwindows.com

Sentinel Products Offer Many Customizable Choices

Frame Color

- White
- Clear Anodized
- Bronze

Glass Types

- Laminated
- Insulated Laminated

Glass Tints

- Clear
- Gray
- Dark Gray (turtle code)
- Bronze
- Solexia Green
- White Interlayer
- Mist (Pattern 62)
- Rain

Glass Coatings

- High Performance Low-E options

Muntin/Grid Design

- Large assortment of muntin designs

Single Hung

- Sash bottom rail mounted egress lock standard
- Sash top rail mounted sweep lock option
- Concealed head installation screws
- Stainless steel fasteners standard
- Extruded screen frame with Super-View™ screen mesh standard

Horizontal Rolling Window

- Two & Three panel configurations OX, XO, XOX
- Sash handle rail mounted egress lock standard
- Sash interlock rail mounted sweep lock option
- Concealed jamb anchors
- Stainless steel fasteners standard
- Extruded screen frame with Super-View™ screen mesh standard

Casement

- Stainless steel operator standard
- Stainless steel 4 bar hinges standard
- Stainless steel fasteners
- Extruded screen frame with Super-View™ screen mesh standard

Project Out

- Stainless steel dual arm operator standard
- Stainless steel 4 bar concealed hinges standard
- Stainless steel fasteners
- Extruded screen frame with Super-View™ screen mesh standard

Sliding Glass Doors

- Two & Three track configurations
- Pocketing panel options
- Exterior keyed security lock option
- Stainless steel fasteners standard
- Single & dual track extruded frame with Super-View™ screen

Available Finishes:

- White, Bronze and Class I Clear Anodized

Standard Glass Colors:

- Clear, Gray, Dark Gray (turtle code), Bronze, Solexia Green, White Interlayer, Mist (Pattern 62), Rain

Glass Types:

- 5/16" Laminated
- 3/4" Insulated Laminated

Glass Coatings:

- High Performance Low-E options

Standard Hardware:

- Egress self closing lock (sill mounted)

Standard Features:

- Matching top and bottom sightlines
- Flush design
- U-framed captured bottom rail with triple weatherstripping and weeped sill
- 2 1/2" deep frame
- Hidden block and tackle balances (most sizes)
- Extruded snap-on square glazing beads
- Strong structural glazing
- Concealed head anchors
- (3) #10-1 1/4" stainless steel fasteners per corner
- Extruded screen frame with Super-View™ fiberglass mesh

Optional Items:

- Meeting rail mounted sweep locks
- Uneven size vent windows (Oriel)
- Flange, fin & equal leg frame options
- Additional egress self closing lock

Optional Muntins:

Low Profile

Semi-Contoured (exterior only)

1"	EnergyShield	0.56	0.28	.50

Available Finishes:

- White, Bronze and Class I Clear Anodized

Standard Glass Colors:

- Clear, Gray, Dark Gray (turtle code), Bronze, Solexia Green, White Interlayer, Mist (Pattern 62), Rain

Glass Types:

- 7/16" Laminated
- 1" Insulated Laminated

Glass Coatings:

- High Performance Low-E options

Standard Hardware:

- Patented concealed 3-point lock
- Aluminum hinges

Standard Features:

- Extruded snap-on square glazing beads
- 4" deep frame
- Fastener covers
- Triple weatherstripping
- Outswing configuration
- Square or slanted sill cover

Optional Items:

- Brushed Satin, Tuscan Bronze or Polished Brass levers
- Free-Standing and Self-Mating Sidelites
- ADA saddle threshold (coming soon)
- Hardware package upgrade

Optional Muntins:

Low Profile

Semi-Contoured (exterior only)

Glass Types:

Laminated Glass

Insulated Laminated Glass

Sentinel French Door 160

Comes standard with CGI patented 3-point lock and stainless steel package. Available with self-mating sidelites. 4" frame depth allows for easy retrofit install. Slanted or square sill covers
